A Warm Welcome

My name is Caroline Jessop, and I am the Early Years Learning Lead (EYLL) for Maths at Childhaven Stronger Practice Hub.

My role is to support early years educators to strengthen their practice through high-quality CPD and bespoke support. I want to help equip early years practitioners with the skills they need so that every child can find their voice and thrive in life.

I work part-time teaching in a maintained nursery and understand the daily pressures of working with young children!

Why Early Mathematics matters

Childhaven
Early Years
Stronger Practice Hub

75%

National GLD Target by 2028

DfE goal for children achieving Good Level of Development

Key Predictor of Success

Early math capability at school entry strongly predicts later educational outcomes.

Beyond Basic Counting

Encompasses spatial reasoning, patterns, measure, and cardinality in play.

Early Years Stronger Practice Hub CPD (2-4 year olds)

By the end of the Maths module you will have an increased level of knowledge which you will be able to embed into your day-to-day practice, ensuring that your setting is aligned with best practice approaches.

Across the 6 units you will learn vital skills and knowledge to support young children. There will be regular opportunities to check your understanding and to apply learning by reflecting on your own practice. You will also
be equipped with practical ideas, activities and book suggestions.

Impact

Enhanced Vocabulary

Practitioners use precise spatial and numerical language during play.

Environment Provision

Weaving math opportunities into continuous indoor and outdoor provision.

Parent Engagement

Confidence sharing early math learning strategies with families.
